PROFESSIONAL SUMMARY

Technically minded Customer Support Specialist with 5+ years of experience in SaaS, e-commerce and payments. I resolve Tier 1 and Tier 2 cases: API and payment gateway integration troubleshooting, plus bug escalation and follow-up with Engineering on GitHub. At Tiendanube I handled ~60 daily Zendesk tickets with a **2-minute first response time**, **100% SLA compliance** and **96% CSAT**. I turn repetitive questions into self-built tools: my Cuota Nube fee calculator cut cost-related inquiries by **over 25%**.

WORK EXPERIENCE

Training & Personal Projects | Dec 2025 – Present
- Completed Front-End Web Development, Applied AI and AI Essentials; built and published my own tools (see Projects).

Tiendanube – Customer Support Specialist (Support Guru) | SaaS / E-commerce | May 2025 – Nov 2025
- **Volume & metrics:** ~60 daily multichannel tickets in Zendesk with a 2-min FRT, **100% SLA compliance** and **96% CSAT**, resolving Tier 1 and Tier 2 technical cases. Metrics backed by my evidence dossier: florbagnis.github.io/Portfolio-FlorBagnis/Dossier-en.pdf
- **Integrations & APIs:** troubleshooting with **Insomnia** across payment gateways (Pago Nube, Mercado Pago, MODO, Ualá Bis); managed chargebacks, verified their resolution in dLocal and built reports.
- **Bugs:** escalated and tracked bugs with Engineering on GitHub, providing workarounds so merchants could keep operating; received recognition.
- **Cuota Nube:** designed a fee and installment calculator (see Projects) that cut cost-related inquiries by **over 25%** and became the basis for the official calculator, recognized by the Product team.
- **Customer Success support:** tickets that had to be answered within 3 minutes to avoid SLA breaches.
- **Tools & reporting:** Zendesk macros for the Pago Nube team (50+ people); Tableau to monitor my metrics and look up customer plans; Excel tool to calculate target CSAT; templates customized with HTML and CSS without relying on Engineering; payment reconciliation led with Finance.
- **Retention & onboarding:** retained **150+ stores per month** at risk of churn due to KYC issues, using self-built tools (Cuota Nube and Text Blaze macros), and turned negative tickets into positive ones; onboarded **80+ entrepreneurs per month** with Loom videos, screenshots and personalized follow-up so they could complete KYC without errors.

Europ Assistance – Remote Customer Support & Operations Assistant | Sep 2023 – Dec 2024
- Handled claims and inquiries for La Caja Seguros, meeting 80%+ of metrics and SLAs under daily quality audits. Coordinated tow trucks, glass repair and dent repair with vendors, following up until each case was resolved.
- Managed incidents in Salesforce and Neotel, with reports and automations in advanced Excel.

La Nona – Freelance, weekends: Chat Support & Design | Aug 2022 – Mar 2025
- Handled customer service and orders via WhatsApp, Instagram and Facebook; designed promo flyers and daily menus.

Cat Technologies – Support & Retention Agent | Telecommunications (Personal) | Jun 2020 – Jul 2022
- Personal campaign: customer service and retention, 70+ multichannel inquiries per day; met the call-time target (max. 5 min) **95%** of the time, with 80% metric and FCR compliance. Trained 5 new hires as a buddy; received a recognition award. Retained 30+ customers per month with loyalty offers. Santander campaign (banking, Jan – Jul 2022): closed 60 sales per month of accounts, loans, auto loans and cards.

PROJECTS

- **Neko Jobs** (JavaScript, Cloudflare Workers, Firebase) | github.com/FlorBagnis/Neko-Jobs – Telegram bot that alerts users to new openings at tech companies in Argentina and LATAM.
- **Cuota Nube** (Fee and installment calculator) | calculadora-tiendanube.vercel.app – Basis for Tiendanube's official calculator.
- **Mensuales** (HTML, CSS, JavaScript, Firebase) | gastosmensuales-two.vercel.app – Free expense app used by 20+ people.
- **CX-Macros** (React, Vite) | cx-macros.vercel.app – Support tool with 12 templates, favorites and PDF/CSV export.
- **CSAT Calculator** (HTML, CSS, JavaScript) | florbagnis.github.io/calculadora-csat – App for CX peers, evolved from my Tiendanube Excel tool.
