PROFESSIONAL SUMMARY

Customer Support Specialist with 5+ years of experience in SaaS, e-commerce and payments. At Tiendanube I handled ~60 daily tickets in Zendesk with a **2-minute first response time**, **100% SLA compliance** and a **96% CSAT**. I solve Tier 1 and Tier 2 cases, troubleshoot APIs and payment gateways, and turn recurring inquiries into improvements: with Cuota Nube, a tool I built, I reduced cost-related inquiries by **more than 25%**. I also bring training in Frontend Web Development and applied AI.

WORK EXPERIENCE

Tiendanube – Customer Support Specialist (Support Guru) | SaaS / E-commerce | May 2025 – Jun 2026

- Handled ~60 daily multichannel tickets in Zendesk with a 2-minute FRT, **100% SLA compliance** and **96% CSAT**, solving Tier 1 and Tier 2 technical cases; also supported Customer Success with tickets that had to be answered within 3 minutes to avoid breaching the SLA.
- Designed **Cuota Nube**, a fee and installment calculator (calculadora-tiendanube.vercel.app), which reduced cost-related inquiries by **more than 25%** and served as the basis for the official calculator, recognized by the Product team.
- Retained **more than 150 stores** at risk of churn due to KYC issues and turned negative tickets into positive ones; onboarded **more than 80 entrepreneurs** with Loom videos, screenshots and personalized follow-up so they could complete KYC without errors.
- Escalated and followed up on bugs with Engineering in GitHub, providing workarounds so customers could keep operating; received recognition. Troubleshoot integrations and APIs with Insomnia across payment gateways (Pago Nube, Mercado Pago, MODO, Ualá Bis); handled chargebacks, verified their resolution in dLocal and built reports.
- Used Tableau to monitor my metrics and check customers' plans; created Zendesk macros for the Pago Nube team (50+ people) and an Excel tool to calculate the target CSAT; led payment reconciliation with Finance; customized templates with HTML and CSS without depending on Engineering.

Europ Assistance – Remote Customer Support & Operations Assistant | Sep 2023 – Dec 2024

- Handled claims and inquiries for La Caja Seguros, with 80%+ compliance on metrics and SLA, under daily quality audits.
- Managed incidents in Salesforce and Neotel, with reports and automations in advanced Excel.

La Nona – Freelance, weekends: Chat Support & Design | Aug 2022 – Mar 2025

- Customer service and orders via WhatsApp, Instagram and Facebook; designed promo flyers and daily menus.

Cat Technologies – Support & Retention Agent | Telecommunications (Personal) | Jun 2020 – Jul 2022

- Customer service and retention for Personal: 70+ daily multichannel inquiries; met the call time target (max. 5 min) **95% of the time**, with 80% compliance on metrics and FCR. Trained 5 new hires as a buddy; received a recognition award.

PROJECTS

- Cuota Nube** (Fee and installment calculator) | calculadora-tiendanube.vercel.app – Basis for Tiendanube's official calculator.
- CX-Macros** (React, Vite) | cx-macros.vercel.app – Support tool with 12 templates, custom editing, favorites, PDF/CSV export and "Polish text".
- Mensuales** (HTML, CSS, JavaScript, Firebase) | gastomensuales-two.vercel.app – Free app used by 20+ people: expense tracking, alerts, PDF/CSV, CSV import and Firebase.
- CSAT Calculator** (HTML, CSS, JavaScript) | florbagnis.github.io/calculadora-csat – Evolved from an Excel tool I shared with Tiendanube teammates into an app to share with CX peers.
